

The Broadening Perspectives Scholarship

As we have come to embrace that home movies are as important as theatrical releases, and that digital is a valid form of preservation, the archives field has grown by listening to such new ideas. By opening our community, we open our hearts and minds to a more diverse view of the world. A conversation inclusive of many voices helps us bridge communities and develop as individuals. The goal of this scholarship is to encourage participation in our community from voices that, for any number of reasons, may not have been heard, so that each of us and the AMIA community may grow through **Broadening Perspectives**. Founded in 2022, this scholarship is funded by George Blood, L.P.
