

Welcome to DAS New York!

AMIA's Digital Asset Symposium (DAS) brings together speakers and case studies from a broad range of disciplines at the cross-section of theory and practice. Constantly evolving technology creates new opportunities as well as new challenges in the use and management of content.

While these are ever changing, they are not unique to a given organization or field. Gathering and sharing with peers from a wide range of organizations offers the possibility to generate and gain new insights. DAS is the place where these catalytic connections and conversations happen, and we are glad you are here to join in the discussion!

Enjoy the day.

Chris Lacinak
Chair, DAS New York
