

AMIA Supplier Directory

A Global Directory of Services and Suppliers of Audiovisual Media

October . 2018

The **AMIA Supplier Directory: A Global Directory of Services and Suppliers of Audiovisual Media** is a resource guide for those working with audiovisual media.

Available through the AMIA website and open to everyone, the *AMIA Supplier Directory* is updated quarterly, with the next issue due in the winter.

If you are a supplier, service provider, association, or other organization serving those who work with audiovisual media, please add your listing through the simple submission form at <https://goo.gl/sE8ohN>. You **do not** need to be an AMIA member to be listed. The goal is to create as comprehensive a resource as possible to serve the community.

If you are interested in advertising in future issues, contact the AMIA office.

Association or Organization

Anthology Film Archives

32 Second Ave.

New York, NY 10003

212-505-5181

www.anthologyfilmarchives.org

Contact: johnk@anthologyfilmarchives.org

Anthology Film Archives preserves, presents, and promotes independent, avant-garde, and artist-made cinema. Anthology was founded in 1970 as an artist-centered organization committed to challenging, non-commercial, and experimental work, past and present. AFA presents over 1,000 public screenings annually and maintains an unparalleled collection of avant-garde film and media, a reference library, and preservation program that has saved over 1,000 historic and pioneering films and videos, ensuring these works are available to new generations of filmgoers.

Asian Film Archive

100 Victoria St., #04-01

National Library Bldg.

Singapore, 188064 Singapore

67773243 | www.asianfilmarchive.org

+5411 4383 6432

www.cinain.gob.ar

Contact: info@cinain.gob.ar

Is a public institution under the Ministry of Culture of Argentina, created with the aim of preserving, restoring and promoting the film heritage. In 2018, in agreement with the University of Buenos Aires (UBA), CINAIN created the Certificate in Audiovisual Preservation and Restoration (DiPRA), the first formal educational program for audiovisual preservation in South America.

National Film and Sound Archive of Australia (NFSA)

McCoy Circuit Acton

Canberra, ACT 2601 Australia

+61-2-6248-2000 | www.nfsa.gov.au

Contact: enquiries@nfsa.gov.au

The National Film and Sound Archive (NFSA) is Australia's 'living' archive. We are the national agency concerned with the visibility, usability and sustainability of Australia's audiovisual heritage. Our mission is to collect, preserve and share our national audiovisual collection – past, present and future – in order for others to learn, experience and create with it. The NFSA collection includes over 2.8 million items, encompassing moving image and sound production from Australia's earliest days to the present.

Acquisition, preservation, conservation, digitisation and restoration of celluloid films.

Netherlands Institute for Sound and Vision

Paramariboplein 42-I

Amsterdam, 1058AT Netherlands

+31356771691

www.beeldengeluid.nl/en

Contact: erwin.verbruggen@gmail.com

Sound and Vision is the Netherlands' institute for media culture. We interpret current developments concerning people, media and society from a media-historical perspective by using our collection, as a media museum, a knowledge institute and educational partner. We show people how media have evolved in (recent) history, follow current developments and respond to new media phenomena. In this way, we contribute to an open media culture as part of a free society.

TVO

2180 Yonge St.
Toronto, ON M4S 2B9 Canada
416-484-2600 | www.tvto.org

Audio Mechanics

1200 West Magnolia
Burbank, CA 91506 USA
818-846-5525
www.audiomechanics.com
Contact: john.polito@audiomechanics.com

Audio Mechanics offers high quality sound services focused on archival preservation assessment, evaluation, and restoration of film soundtracks, audiotapes, and discs. Since 1991 we have been providing technical expertise in managing synchronous audio elements, including proprietary analog sound transfer of deteriorating mag film (vinegar syndrome). Audio Mechanics' experienced staff is expert in assessing and efficiently addressing a multitude of audio issues including WOW minimization, noise removal, re-mastering, re-formatting for DCP, HD and theatrical exhibition.

Iron Mountain Entertainment Services

1025 North Highland Ave.
Hollywood, CA 90038 USA
800-899-IRON
www.ironmountain.com/entertainment
Contact: imfscustomerservice.com
With Iron Mountain, media obsolescence is no longer an issue. Along with safety and preservation, your archive will be expertly migrated and managed in the ever-evolving digital world – all without you ever needing to research formats, transfer media, or pay for migration again. Once your assets are in our system, you can be sure that your archive will always be available and secure – no matter how media formats change - now and into the future.

Media Transfer Service, LLC

317 Main St., Eyer Building
East Rochester, NY 14445 USA
585-248-4908
www.mediatransferservice.com
Contact: mtsinfo@rochester.rr.com
Specializing in high quality digitization of audiovisual media for businesses, educational institutions, and private collections. Our dedicated facility is staffed with professionals, focused on digital preservation of your media, with a no-frills approach. Our goal - offering you the highest quality media transfer available, with the best service possible, at reasonable rates. We digitize a broad range of video, audio, motion picture film and still image media formats. Visit our website to learn more.

MediaPreserve, The

111 Thomson Park Dr.
Cranberry Township, PA 16066 USA
800-416-2665
www.themediapreserve.com
Contact: info@themediapreserve.com
The MediaPreserve, a division of Preservation Technologies, provides consultaion, reformatting, and digital storage services for audio, video and film collections. Using expertly-modified legacy equipment as well as current technologies, our staff of engineers, librarians, archivists and metadata specialists transfer and document your collection materials according to professional standards and best practices so that your AV assets remain accessible into the future.

Northeast Document Conservation Center

100 Brickstone Square
Andover, MA 01810 USA
978-470-1010 | www.nedcc.org
Contact: broe@nedcc.org @nedcc.org
NEDCC provides digital reformatting of audio carriers using traditional as well as optical-scanning technologies. NEDCC performs traditional, fully-attended transfers of magnetic media, with 100% quality-control (i.e., not parallel transfers with spot-checking). The touchless IRENE technology images the grooves on fragile carriers such as wax cylinders and lacquer discs, and translates the TIFF files into BWF files. NEDCC also provides training on care and preservation of AV collections. NEDCC serves clients nationwide. Contact: Bryce Roe, broe@nedcc.org.

PRO-TEK Vaults

3110 North San Fernando Blvd.
Burbank, CA 91504 USA
323-468-4469 | www.protekvaults.com
Contact: tim.knapp@protekvaults.com
For long-term safeguarding of film and other media assets, PRO-TEK sets the standard of excellence. Our precise, critically-controlled environment and processes meet strict archival requirements. The experience and technical skills of our people are backed by their extensive knowledge of still photography and motion picture history. We answer questions of provenance, tackle preservation challenges and offer curation guidance to film studios, archives, private collections and other content owners. Learn more at www.protekvaults.com.

National Film and Sound Archive of Australia (NFSA)

McCoy Circuit Acton
Canberra, ACT 2601 Australia
+61-2-6248-2000 | www.nfsa.gov.au
Contact: enquiries@nfsa.gov.au
The National Film and Sound Archive (NFSA) is Australia's 'living' archive. We are the national agency concerned with the visibility, usability and sustainability of Australia's audiovisual heritage. Our mission is to collect, preserve and share our national audiovisual collection – past, present and future – in order for others to learn, experience and create with it. The NFSA collection includes over 2.8 million items, encompassing moving image and sound production from Australia's earliest days to the present.

Netherlands Institute for Sound and Vision

Paramariboplein 42-1
Amsterdam, 1058AT Netherlands
+31356771691
www.beeldengeluid.nl/en
Contact: erwin.verbruggen@gmail.com
Sound and Vision is the Netherlands' institute for media culture. We interpret current developments concerning people, media and society from a media-historical perspective by using our collection, as a media museum, a knowledge institute and educational partner. We show people how media have evolved in (recent) history, follow current developments and respond to new media phenomena. In this way, we contribute to an open media culture as part of a free society.

Northeast Document Conservation Center

100 Brickstone Square
Andover, MA 01810 USA
978-470-1010 | www.nedcc.org
Contact: broe@nedcc.org
NEDCC provides digital reformatting of audio carriers using traditional as well as optical-scanning technologies. NEDCC performs traditional, fully-attended transfers of magnetic media, with 100% quality-control (i.e., not parallel transfers with spot-checking). The touchless IRENE technology images the grooves on fragile carriers such as wax cylinders and lacquer discs, and translates the TIFF files into BWF files. NEDCC also provides training on care and preservation of AV collections. NEDCC serves clients nationwide. Contact: Bryce Roe, broe@nedcc.org.

Contact: mtsinfo@rochester.rr.com
Specializing in high quality digitization of audiovisual media for businesses, educational institutions, and private collections. Our dedicated facility is staffed with professionals, focused on digital preservation of your media, with a no-frills approach. Our goal - offering you the highest quality media transfer available, with the best service possible, at reasonable rates. We digitize a broad range of video, audio, motion picture film and still image media formats. Visit our website to learn more.

MediaPreserve, The

111 Thomson Park Dr.
Cranberry Township, PA 16066 USA
800-416-2665
www.themediapreserve.com
Contact: info@themediapreserve.com
The MediaPreserve, a division of Preservation Technologies, provides consultaion, reformatting, and digital storage services for audio, video and film collections. Using expertly-modified legacy equipment as well as current technologies, our staff of engineers, librarians, archivists and metadata specialists transfer and document your collection materials according to professional standards and best practices so that your AV assets remain accessible into the future.

Memnon Archiving Services Inc. **a Sony company**

2719 East 10th St.
Bloomington, IN 47408 USA
631-880-8685 | www.memnon.com
Contact: andrew.dapuzzo@memnon.com
Memnon Archiving Services offers a range of services to digitize, restore, preserve and provide access to classic and current Audio/Visual recordings in any format and film. Our service is suitable for a wide range of archive owners – from cultural institutions, libraries, universities and publishers. We provide a professional, high-quality, cost-effective service, that combines innovative techniques, ten plus years of experience and an optimized production process supported by our industrial scale production asset management system.

Northeast Document Conservation Center

100 Brickstone Square
Andover, MA 01810 USA
978-470-1010 | www.nedcc.org
Contact: broe@nedcc.org
NEDCC provides digital reformatting of audio carriers using traditional as well as optical-scanning technologies. NEDCC performs traditional, fully-attended transfers of magnetic media, with 100% quality-control (i.e., not parallel transfers with spot-checking). The touchless IRENE technology images the grooves on fragile carriers such as wax cylinders and lacquer discs, and translates the TIFF files into BWF files. NEDCC also provides training on care and preservation of AV collections. NEDCC serves clients nationwide. Contact: Bryce Roe, broe@nedcc.org.

Prasad Corporation

711 South Main St.
Burbank, CA 91506 USA
818-861-7417 | www.prasadcorp.com
Contact: paul.stambaugh@prasadcorp.com
Prasad Corp offers SD, HD, 2K, and 4K scanning for digitizing your 16mm and 35mm motion picture film and sound. Utilizing the high-performance DFT-Scanity film scanner, with the latest High Dynamic Range technology, we offer superior results at competitive prices. Digital restoration and still photography digitization is also available. Ask us how we can help you in developing a personalized plan that fulfills your collection's needs. Special pricing for AMIA Members.

PRO-TEK Vaults

3110 North San Fernando Blvd.
Burbank, CA 91504 USA
323-468-4469 | www.protekvaults.com
Contact: tim.knapp@protekvaults.com
For long-term safeguarding of film and other media assets, PRO-TEK sets the standard of excellence. Our precise, critically-controlled environment and processes meet strict archival requirements. The experience and technical skills of our people are backed by their extensive knowledge of still photography and motion picture history. We answer questions of provenance, tackle preservation challenges and offer curation guidance to film studios, archives, private collections and other content owners. Learn more at www.protekvaults.com.

Provincial Archives of Alberta

8555 Roper Rd.
Edmonton, AB T6E 5W1 Canada

National Film and Sound Archive of Australia (NFSA)

McCoy Circuit Acton
Canberra, ACT 2601 Australia
+61-2-6248-2000 | www.nfsa.gov.au
Contact: enquiries@nfsa.gov.au
The National Film and Sound Archive (NFSA) is Australia's 'living' archive. We are the national agency concerned with the visibility, usability and sustainability of Australia's audiovisual heritage. Our mission is to collect, preserve and share our national audiovisual collection – past, present and future – in order for others to learn, experience and create with it. The NFSA collection includes over 2.8 million items, encompassing moving image and sound production from Australia's earliest days to the present.
